## To Do

### html v5 research
📎 1  ☑ 0/3

### css v3 research
☑ 0/4

### scss (sass) research
☰  ☑ 0/3

### flexbox research
☰

### Check for useful extensions in VS Code to aid with smooth development

### Write a wire-frame version of the site ensuring that all assessment criteria are met

### Create wire-frame version of the CSS document (if CSS is used over SCSS)

### Content: two versions to be considered:
☰

### Content collection (for both initially) until final decision is made and then match with the wire-frame
